## GRAVITY™

ANTI-SKID COATING FOR LOOSE LAY

W.F. Taylor LLC recommends and warrants our Gravity® Anti-Skid Substrate Coating to provide an anti-skid surface for flooring such as hard-backed carpet tile, loose lay LVT, LVP, and other hard backed flooring designed for a floating installation over properly prepared substrates when used as directed. Taylor Gravity® is not an adhesive and will not secure the flooring to the substrate. This warranty is for a period of 10 years and covers installations in residential and multi-family applications. The installation must be performed following both the flooring manufacturers and Taylor's guidelines. Please visit [www.wftaylor.com](http://www.wftaylor.com) for the latest product information and application instructions.

If an installation failure occurs as a direct result of the use of defective product manufactured by Taylor, Taylor will pay for reasonable labor costs to remove, repair or replace the failed portion of the installed coating as determined by Taylor at its sole discretion. This warranty applies only to adhesion related bond failures of the coating to the sub-floor. However, Taylor cannot warrant those factors and variables over which our company has no control. Residual site dust, coating quantity, installer workmanship, subfloor condition (including porosity), flooring stability, and other factors can impact installation and reduce anti-skid properties. As with any flooring selection and/or flooring installation; end-user activities must be reasonable and prudent for the type of flooring used with Taylor "Gravity". The warranty does not cover inappropriate end-user activities, abuse or other circumstances which would limit the success of Gravity's performance and/or if a direct-glue or full-spread adhesive installation method would be a better recommendation. If you have questions, please consult your local Taylor Representative or contact our Technical Services team.

W.F. Taylor LLC reserves the right to inspect the cause for any claim as deemed necessary or this warranty is null & void. Any repairs done prior to inspection by a Taylor representative voids any warranty. This warranty is non-transferable.
