

SIGNATURE LINE®

# SAHARA®

UNLIMITED MOISTURE VAPOR  
BARRIER, ELASTOMERIC MEMBRANE

## PRODUCT HIGHLIGHT

When you need complete peace of mind, **Sahara** covers all your bases. Engineered to combat extreme moisture installations, it is one of the most aggressive moisture vapor barrier products on the market. Sahara can speed-up your construction timeline, eliminating the need for costly moisture testing.

COVERAGE: 90-120 ft<sup>2</sup>/gal  
AVAILABLE IN: 2 gal  
SHELF LIFE: 1 year

NOW  
FEATURING  
NO TESTING

**COST SAVINGS  
POTENTIAL**

**Skip Testing:** Can save \$0.15/ft<sup>2</sup> by not having to moisture or pH test

**Start Installing:** Save days or weeks by avoiding costly construction delays

**Save \$4-5/ft<sup>2</sup>** by not having to bead blast, skim coat, or use a 2-part epoxy system

Savings are based on an estimated national average and may vary based on location and job site.

## WHY USE

- Protects floating and loose-lay flooring
- Unlimited moisture protection (porous slab)
- Replaces 2-part epoxies
- Cost savings potential
- No testing required (RH, pH, MVER)
- No shot/bead-blasting required (CSP 1+)
- Protects flooring from alkali attack
- Permanent, waterproof membrane
- Simple, 1-part installation
- Inhibits mold/mildew growth
- Faster construction timeline
- Self-healing, elastomeric membrane
- Handles extreme heavy rolling loads
- Solvent and isocyanate-free
- 1-step installation (no stirring/mixing)
- Extremely low VOC, extremely low odor
- Antimicrobial technology
